COMPLETION

Comlux Completion: your center of excellence for VIP cabin completions

Comlux Completion is one of the leading completion and service centers worldwide, offering customized solutions to create an interior reflecting your lifestyle.

Comlux Completion works on both Airbus and Boeing VIP aircraft creating “Comfort and Luxury” on board.

Comlux Completion is an approved Bombardier Authorized Service Facility (ASF) for Learjet, Challenger, and Global aircraft model types and has extensive experience in heavy aircraft inspections, major structural repair, avionics, and aircraft interior refurbishment.

Comlux Completion: A preferred choice for your VIP aircraft maintenance

Comlux Completion's service center has extensive capabilities to perform maintenance, refurbishments and upgrades on narrow body VIP aircraft. It is your long-term partner to protect your aircraft's value.

Our facility is staffed to accommodate many different needs, from AOG situations, to inspections, to troubleshooting, to structural

repair and avionics installations. Our teams are committed to providing comprehensive maintenance support around the clock to ensure safe and reliable operation of your aircraft with minimal downtime.

While your aircraft is inspected for a major maintenance event, we can combine it with an interior refurbishment and an avionics upgrade.

INTERIOR REFURBISHMENT

- Our in-house designers are aware of certification requirements and limitations specific to each aircraft.
- They team together with our in-house shops (cabinet, sheet metal, upholstery, interior installation, finish) to refresh your VIP interior.

AVIONICS SYSTEMS UPGRADES

- Our in-house avionics and systems design shops help to keep your aircraft at the cutting edge of technology.
- Whatever you need, in flight entertainment, connectivity, or cabin comfort features, we install the most advanced and reliable systems in your aircraft to make your flight more enjoyable.

COMPLETION

APPROVED SERVICE CENTER FOR ACJ, BBJ, BOMBARDIER & SUKHOI

ACJ

Comlux Completion was named an authorized service center for Airbus Corporate Jets in 2015. This makes Comlux Completion the first independent fully authorized ACJ service center in the world.

BBJ 20 YEARS

In 2015, Boeing Business Jets designated Comlux Completion as an authorized BBJ warranty repair facility and service center.

BOMBARDIER

Comlux Completion has remained a Bombardier Approved Service Facility (ASF) since 2009.

SUKHOI
CIVIL AIRCRAFT
A Sukhoi and Alenia Aermacchi Company

In 2016, Comlux Completion became an EASA Part 145 authorized Sukhoi Completion center.

Comlux Completion expands its facilities for wide body aircraft market

Comlux Completion recently completed a hangar expansion at the Indianapolis International Airport. This ultra modern facility allows Comlux Completion to significantly increase its production capabilities from 4 narrow body aircraft, with a total surface of 157,000 sq.ft. to to be capable of completing wide body and narrow body aircraft simultaneously.

The facility is equipped with very comfortable and modern Customer offices, including a prayer room for Middle Eastern clients.

Modernization

Expansion

Comlux Completion is not just another Completion and Maintenance Center

Comlux Completion is one of the few completion and maintenance centers integrating all capabilities in-house.

- Certification and Airworthiness department
- Design office
- Engineering department
- Production line including all workshops

Comlux Completion can design, engineer, fabricate, install, maintain and certify your entire cabin inside our facilities.

The cooperation between our production staff, interior designers, engineers and mechanics allows us to react effectively to your custom requests.

Our employees are our strength

Our people have an individual average of 20 years experience and all of them have been selected for their excellent knowledge of aircraft completions and maintenance.

Just like artists, they are passionate about their work and committed to excellence.

Each employee is specialized in one specific trade to provide you with the best results at the highest standards.

Certification and Airworthiness department

Our certification and airworthiness department works with the major aviation authorities worldwide.

Our objective is to continuously build on our long-term relationships with both the US and foreign aviation authorities, ensuring our customers the optimum flexibility in design, with a smooth and efficient certification process, while also providing the ultimate in safety and quality for your aircraft.

Comlux Creatives, the Designers

Our specialized team allows us to provide a full spectrum of design services that will carry your needs throughout the completion, from initial design discussions to the final installation details.

Our team is able to offer clients exceptional knowledge of aircraft interior design and functionality; due to their expertise in integrating today's latest trends with aviation specific requirements.

Whether you are in the market for just a few minor upgrades or a completely new interior, the Comlux design team is committed to providing you with excellent service and a meticulous eye for the finest details.

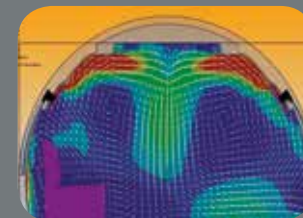

Engineering department

Comlux has integrated engineering talents from around the world to create the most advanced systems in the market today.

- Structure and Flight Sciences
- Systems Engineering
- Furniture and Interior
- Technical Publications & Document Control
- Electrical Engineering

They are committed to developing new concepts and processes to enhance comfort on board such as noise reduction programs and improving aircraft performance by saving weight.

Production line

Our fully integrated production line allows us to fabricate and install every item of your cabin.

- Cabinet Shop
- Sheet Metal Shop
- Systems Department Shop
- Avionics Shop
- Upholstery Shop
- Finish Shop
- Interior Installation
- Maintenance

By integrating all these shops, we ensure supply chain control of the completion, maintenance or refurbishment process until aircraft delivery.

Comlux Completion is one of the key companies of Comlux

Comlux provides a large range of business aviation services from aircraft operations to cabin completion and maintenance support.

Comlux Completion benefits from the feedback of our aircraft operations team. This valuable experience allows us to build a VIP cabin with a global understanding of business aviation requirements and limitations.
